

Notice of Accessibility

Thank you for visiting our website. We are continuously working to improve the accessibility of content on our website to better serve our patients.

If you have trouble seeing our website, we recommend reviewing the resources, and step-by-step guides found at the following website: <https://www.w3.org/WAI/users/browsing>

The guide above, referenced by the ada.gov website will help you customize your specific web browser and computer to achieve the best results.

Our site is designed to be able to be read aloud, navigated by keyboard only, allow increased or decreased text size, or change of its colors for your accessibility needs.

Visual Aids

If you have trouble seeing web pages, [the US Social Security Administration](#) offers these tips for optimizing your computer and browser to improve your online experience.

[Use your computer to read web pages out loud](#)

[Use the keyboard to navigate screens](#)

[Increase text size](#)

[Magnify your screen](#)

[Change background and text colors](#)

[Make your mouse pointer more visible](#) (Windows only)

Closed Captioning

Closed captioning provides a transcript for the audio track of a video presentation that is synchronized with the video and audio tracks. Captions are generally visually displayed over the video, which benefits people who are deaf or hard of hearing, and anyone who cannot hear the audio due to noisy environments. Learn how to turn captioning on and off for YouTube by [clicking here](#).

Volume Controls

Your computer, tablet, or mobile device has volume control features. Each video and audio service has its own additional volume controls. Try adjusting both your device's volume controls and your media players' volume controls to optimize your listening experience.

Additional Information

If the recommendations above do not meet your individual needs, we invite you to contact our office at for assistance.
